

ANDREW

WORK EXPERIENCE

Junior Back-End Developer, AlmaSoft

Dec 2018 - Jan 2020 / Full-time

used to develop logistics web platforms for delivering fuel to oil depots and gas stations. The team was small and I was working solo on it, with help from a Senior team member working on another project.

Tech stack:

- PHP (Laravel)
- HTML/CSS (Bootstap)
- JavaScript (Ajax)
- MySQL
- Redis

third-party APIs:

- Google API

Middle/Middle+/Senior Back-end Developer, FluidWeb

Jan 2020 - Current, / Full-time

I used to work with many types of businesses such as real estate, insurance, and online shops in the main BE developer role.

Tech stack:

- Node.js(Javascript, TypeScript) frameworks Express.js, Nest.js
- PHP frameworks Laravel, Symfony, and local CMS
- MySQL, PostgreSQL, MongoDB
- Redis DB, Queue
- WebSockets
- Docker
- Jenkins
- ElasticSearch
- Different tools for logging and creating visualizations for application and infrastructure

Jul 2022

Jun 2020

monitoring, faster troubleshooting, security analytics

Additional technologies:

- Python framework FastAPI
- C# ASP.net

I build a couple of monolithic apps using the RESTapi interface from scratch.

Also, I was

working on a microservice app for real estate.

I was integrating different types of services and third-party APIs such as Twilio, etc.

EDUCATION

2021 | B.DES

Bachelor's degree
in Systems Analysis

ADMIRAL MAKAROV
NATIONAL UNIVERSITY
OF SHIPBUILDING

Jul 2022

Young Applied
Mathematics Specialist

COLLEGE - MNU
IM. V.O.SUKHOMLYNSKY

SKILLS

Node.js(ES5+)

Express.js

Nest.js.

FE frameworks

React.js/ts
