

ARTHUR

WORK EXPERIENCE

FULLSTACK ENGINEER AT UPTARGET, UPTARGET.COM

01/04/2020 – CURRENT / Full-time

At this company, I take part in very challenging projects as a team and tech leader (on hands). Talking to customers, understanding business needs and suggesting solutions.

Tech Stack: Frontent: React, Nextjs, Typescript, CodeseptJS
Backend: Nodejs, Typescript, Postgres, mongoDB, dynamoDB, AWS, Jest
Other tools used: JIRA, Figma, Zeplin.

FULLSTACK ENGINEER AT TITANIUM LABS, TITANIUM LABS

01/03/2018 – 01/05/2020 / Full-time

At Titanium, I was happy to be one of the team's core members. My technical stack covered React, Nodejs, Typescript, Postgres, and AWS. I worked directly with the customers forming teams and delivering products. Moreover, I set up a mentorship system in the company to form knowledge-sharing and crossproject relationships and initiated various activities. With this in mind, I took a part in the company's blockchain courses as a mentor.

Tech Stack:
Frontent: React, Web3.js
Backend: Nodejs, Solidity, mongoDB, AWS
Other tools used: Asana, Figma

FULLSTACK ENGINEER. TECHNICAL ADVISOR AT TRIARE TRIARE.NET

01/09/2015 – 01/03/2018 / Full-time

I was hired as a Senior Ruby on Rails developer. Later, as my skills developed and my vision transformed, I got to know MSSQL, OpenCart, and ThreeJS. As a result, I switched from Angular to Vue.js. After the successful launch of my first project there, I became a technical advisor for many other projects in the company. I took part in technical interviews, guided junior and middle developers, and closed impossible for other team members' issues. On top of that, I initiated a lot of activities, starting with internal meetups and technical knowledge-sharing events and ending with fuzzball tournaments.

Teck stack: Frontent: AngularJS, VueJS
Backend: Ruby on Rails, PHP, MySQL, Postgres, Wordpress, OpenCart
Other tools used: Redmine

EDUCATION

BACHELOR'S DEGREE

CHERKASSY STATE
TECHNOLOGICAL UNIVERSITY

SKILLS

- Node.js(ES5+)
